SKILLS SUMMARY

Angular

Node.js

MongoDB

JavaScript

Git & Bitbucket

JIRA

CONTRIBUTIONS

Most Outstanding Employee of the Year, Pixelpoint Hive (2015)

Best Mobile App Design, HGFZ Graduate Center (2014)

Design Awards, Cliffmoor College (2012)

KEN FOWLER

FRONT END DEVELOPER

PERSONAL PROFILE

It's fascinating to me that, with the right instructions, you can create powerful applications and even virtual worlds using your keyboard. It's this potential that drives my interest in software engineering. Let's work together and build something amazing!

FEATURED PROJECTS

Precious Metals Vault
MEAN stack application hosted on Heroku

- MEAN application that allows users to track the quantity. and value of their precious metals.
- Secure user accounts hosted on the cloud.
- Analysis and graphing calculated in app.
- Updated prices retrieved automatically with public API.

Battle Math
Javascipt, jQuery, Firebase

- Solve mathmatical equations to destroy enemies
- Create your account and save progress to the cloud
- Proven to make drilling math problems exciting.
- Improves test scores.

EDUCATIONAL HISTORY

Centennial College
Software Engineering Technician | Sept 2020 - Aug 2021

- Created a MEAN application that recieved excellent reviews from my instructor
- Learned the fundemetals of a variety of programming languages, frameworks and design patterns.
- Proficient using version control software (Git) and collaoarating using project managment software (JIRA).

Ryerson University
BA Psychology | Sept 2007 - Dec 2011
